

WeRateDogs

There is a popular saying that “Dog is man’s best friend”. Well, I do believe this. Do you? I hope many of you do and those who don’t, get a puppy and feel the bliss. I would be lying if I say that I always loved dogs. My love affair with dogs started when I was 10. I went to my friend’s house and he had a pet dog named Royal. I was a bit scared to enter the house as I wasn’t too comfortable around dogs. My friend convinced me that I must come in as Royal is very friendly. Yes, you read it right, “friendly”. But I was still a bit uncomfortable. My friend helped me in getting along with Royal and once I became comfortable, I was out of the myth bubble that “Dogs are scary”. From that day till now I feel really energetic and happy when I have a dog around me to play with.

Say Hi! To Royal.

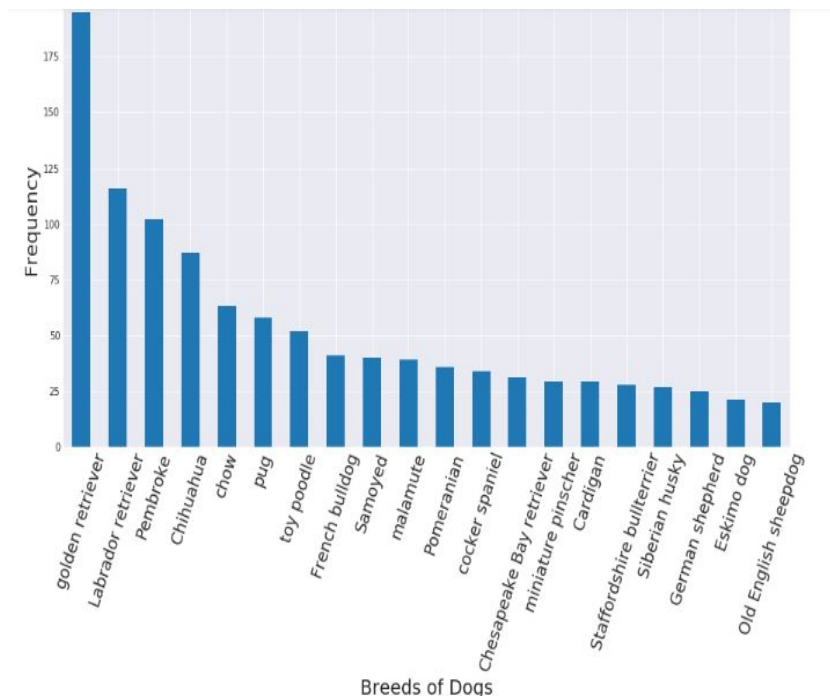

Have you ever hear about WeRateDogs? Don't worry I am going to tell you about it.

"WeRateDogs is a Twitter account that rates people's dogs with a humorous comment about the dog. These ratings almost always have a denominator of 10. The numerators, though? Almost always greater than 10. 11/10, 12/10, 13/10, etc. Why? Because "they're good dogs Brent." WeRateDogs has over 4 million followers and has received international media coverage."

So, one day I decided to go through their tweets and extract some interesting facts. The reason I went through the tweets is to get the answers of the questions that I always had in my mind and I guess many of you are having the same questions in your mind too. So, let's get started.....

Labrador Retriever are cute but are the adopted the most???

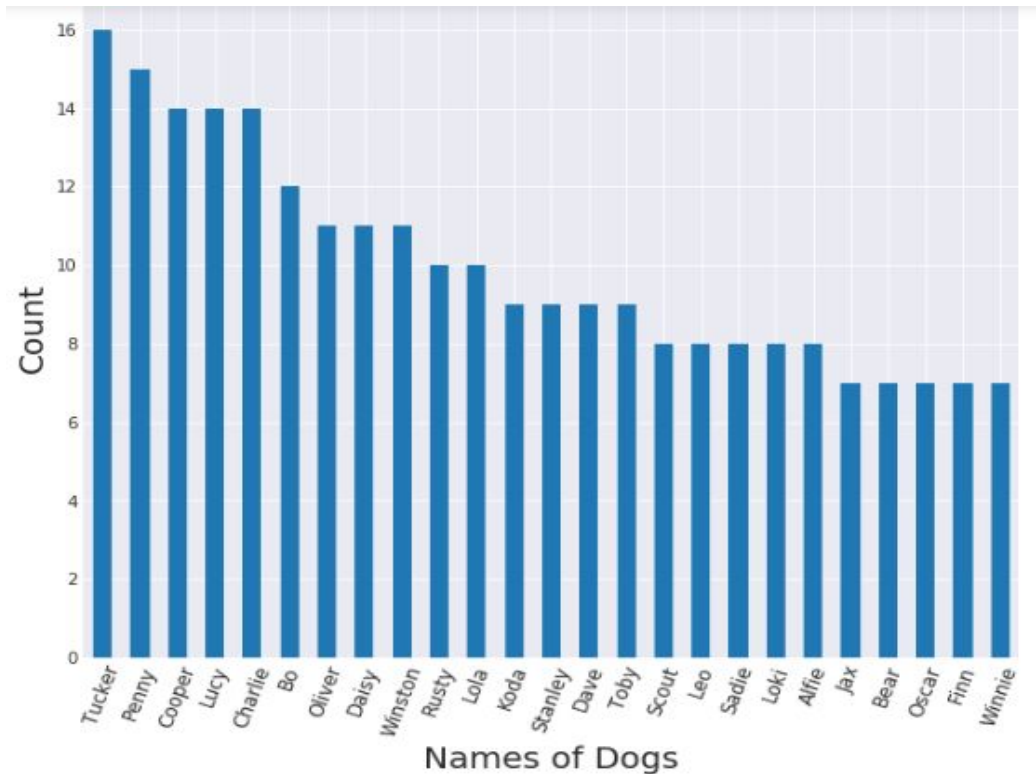

Have you said Hi to Royal? If not then move a bit upwards and say Hi. He is the Golden Labrador Retriever. Isn't he cute? I want this breed to be the most famous. Let's see what Twitter has to say on this..

Ohh!! I am not happy with the Twitter's result. But not very sad either. Golden Retrievers are also very loveable. Nevertheless, Labrador Retrievers are second in the list and that's amazing too.

What name should I give to my next dog?

The world is changing day by day and with it the new names for the dogs are also coming into our ears. Let's see what Twitter has to give us when it comes to selecting names for dogs.

Well well well !!!

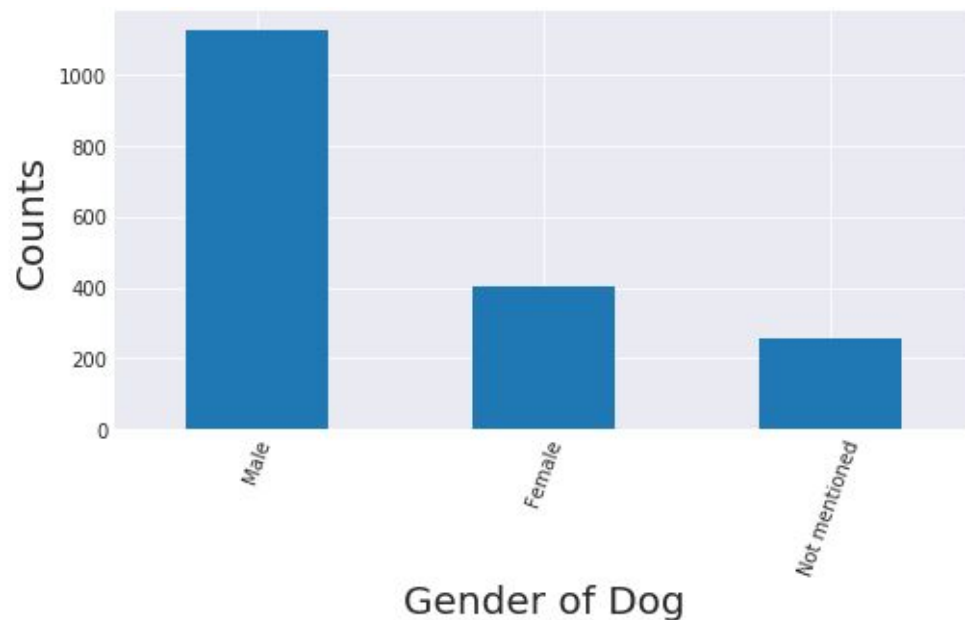

Tucker, Penny, Cooper, Lucy and Charlie and the top 5 names that people frequently select to have for their pet dog. I am certainly not going to select any of these 5 names for my dog as it will be a ***Cliché***

I would prefer to name my pet “OSCAR” if it’s a male and “LIZA” if it’s a female. Who knows maybe these two names get added in this names list the next time when anyone of you asks Twitter.

Since I have mentioned male and female, I have one more question in my mind and it is about the gender of dogs.

Male over female? For dogs too??

We as humans have evolved when it comes to **EQUALITY** and **GENDER DISCRIMINATION**. Most of us, if not all, certainly don't encourage any type of discrimination. But, do people feel the same when it comes to adopting a dog? Let's ask Twitter about it !!!

She doesn't seem happy with the result. It is **#MALEDOMINANCE** even here.

The graph clearly show that most people adopt male dogs than female dogs. Looks like “*The World Hasn't Changed Yet*” for dogs. This is sad :(

This was my whole analytical study about the dogs that I did to answer my questions and yours too. Hope you enjoyed reading this study report.
